

START YOUR BLOG

Go to the Pages tab of the editor and click the page labeled Blog. You have the option to change the name of the blog but we recommend that you do include the word “blog” in whatever you choose to name the page.

The screenshot shows the page editor interface. On the left is a sidebar with a list of pages: Home, Personal Injury, Family Law, Videos, Client Center, and Blog. The 'Blog' page is highlighted with a red box. Above the sidebar are 'Add Page' and 'Add Blog' buttons. Below the sidebar is a tip: 'Tip: Drag pages up/down to reorder and left/right to create subpages.' On the right, there are 'Edit Page', 'Copy Page', and 'Delete Page' buttons. Below these is the 'Page Name' field, which contains the text 'Blog' and is highlighted with a red box. Underneath the name field are three checkboxes: 'Hide page in navigation menu', 'Password protect this page', and 'Link page to external site'. Below these is an 'Advanced Settings' link and a 'Save Settings' button.

After you’ve decided on a name, click Edit Page to start adding content.

A new blog starts with a sample post (that you can either edit or delete) and a sidebar with some default content that you can easily change.

The screenshot shows a new blog post page. At the top left are 'New Post' and 'Manage Blog' buttons. The main content area features a 'First Post!' with the date '07/13/2011' and a '0 Comments' link. Below the post is a paragraph of text: 'Start blogging by creating a new post. You can edit or delete me by clicking under the comments. You can also customize your sidebar by dragging in elements from the top bar.' There are social media sharing buttons for 'Tweet' (0) and 'Like'. Below these is an 'Add Comment' link. On the right side, there is an 'Author' section with the text 'Write something about yourself. No need to be fancy, just an overview.' Below that is an 'Archives' section with a link for 'July 2011'. At the bottom right is a 'Categories' section with a link for 'All' and an 'RSS Feed' icon.
